

LYTOT[®]

Pauline 4 month old with lytot LT003-S-C23

LYTOT the First sun-glasses pacifier.

This innovation is patented.

Lytot is intended for children from 0 to 36 months, Lytot is easier to wear than traditional sun-glasses for young children.

Lytot is made of a special hand cut bio acetate of cellulose (free of petroleum), which complies with infant care standards (without phtalates).

It can be adjusted by the optician (arms between the bottom of circles and the comforter clip) to fit the morphology of child.

Lytot complies with infant care and glasses standards, providing to this product an increased safety for young children.

Lytot is made in France, in a company manufacturing glasses for the main French brands.

The range includes 5 different shapes, 4 pastel colours (crystal, pink, blue and green), as well as two sizes :

- small size for children from 0 to 12 months
- medium size for children from 6 to 36 months
